EVENT PROPOSAL

Academic Year: 2026-2027

Prepared By	varshitha
Date	29 July 2026
Club / Unit	Zigbee club
Department	computer-science

Approval Section

This proposal is submitted for academic and administrative review and approval. All operational details, logistics, scheduling, publicity, and resource planning will be finalized upon formal approval by the competent authorities.

Science

29 July 2026

To,

The Head of the Department, computer-science

The Chairperson, Technical Council

And All Concerned Reviewing Authorities

Subject: Request for review and approval to conduct unit testing for iot organized by Zigbee club.

Respected Sir/Madam,

With due respect, on behalf of Zigbee club, computer-science, we would like to submit the enclosed event proposal for your kind review and approval. The key details are summarized below and elaborated further in the attached document.

Event Name	unit testing for iot
Proposed Date	31 July 2026
Venue	fet building
Expected Participants	50

We believe this event will add meaningful value to the students and the wider academic community, and will be conducted in accordance with the university's guidelines. We kindly request your approval to proceed with the planning, publicity, and execution of this event, and would be glad to provide any further information required.

Thanking you,

Yours sincerely,

Student Coordinator

Encl: Event Proposal Document

1. Event Details

Event Name	unit testing for iot
Event Type	workshop
Theme	Innovation in ai
Proposed Date	31 July 2026
Time	20:38
Venue	fet building
Mode	offline

2. Organizing Team

Faculty Coordinator	varshitha
Student Coordinator(s)	varshitha, harshitha
Club Name	Zigbee club
Department	computer-science

3. About the Event

The 'Unit Testing for IoT' workshop, organized by the Zigbee club, Department of Computer Science, Jain University, aims to provide a comprehensive understanding of the importance of unit testing in IoT development. The workshop will cover the fundamentals of unit testing, its applications in IoT, and hands-on experience with industry-standard tools. The event is designed to bridge the gap between theoretical knowledge and practical skills, enabling participants to develop efficient and reliable IoT systems.

4. Objectives

- To introduce the concept of unit testing in IoT development and its significance in ensuring system reliability.
- To equip participants with hands-on experience in unit testing using industry-standard tools and frameworks.
- To foster collaboration and knowledge sharing among participants, promoting a community-driven approach to IoT development.
- To provide a platform for participants to showcase their projects and receive feedback from industry experts.

5. Target Audience

The target audience for this workshop includes students from the Department of Computer Science, particularly those in their third and fourth years, as well as research scholars and faculty members interested in IoT development.

6. Expected Number of Participants

50

7. Resource Person Details

Name	guest
Designation	senior researcher
Organization	google,iisc
Short Bio	its an nice event about tech fest with different event in it like hackathon , ideathon and all

8. Event Schedule

Time	Activity	Speaker / Lead
9:00 AM - 9:30 AM	Inauguration and Welcome Address	Dr. Varshitha, Faculty Coordinator
9:30 AM - 11:00 AM	Introduction to Unit Testing in IoT	Guest, Senior Researcher, Google/IISC
11:00 AM - 12:30 PM	Hands-on Session: Unit Testing using Industry-Standard Tools	Guest, Senior Researcher, Google/IISC
12:30 PM - 1:30 PM	Lunch Break	Student Coordinators
1:30 PM - 3:00 PM	Project Showcase and Feedback Session	Guest, Senior Researcher, Google/IISC

9. Budget Estimation

S.No.	Particulars	Estimated Amount
1	item 1	Rs. 5,000
2	Refreshments & Catering	Rs. 2,500
3	Materials & Supplies	Rs. 2,000
4	Speaker Honorarium	Rs. 1,500
5	Contingency & Miscellaneous	Rs. 1,000
Total Estimated Budget		Rs. 10,000

10. Logistics Required

Item	Requirement / Remarks
Projector	Required
Mic	Not Required
Internet	Not Required
Certificates	Required
Refreshments	Required
Photography	Not Required
Volunteers	Not Required

11. Publicity Plan

The event will be promoted through social media platforms, email invitations, and posters across the university campus. The Zigbee club will also collaborate with other departments to reach a wider audience. A registration link will be shared on the university's website and social media channels.

12. Expected Outcomes

- Participants will gain a comprehensive understanding of unit testing in IoT development.
- Participants will acquire hands-on experience with industry-standard tools and frameworks.
- Participants will develop skills in collaborative project development and feedback sharing.
- Participants will receive feedback from industry experts and showcase their projects.

13. Risks & Mitigation

Potential risks include last-minute cancellations by the resource person or logistical issues. Mitigation strategies include identifying backup speakers, having a contingency plan for logistical arrangements, and regular communication with the resource person and participants.
