EVENT PROPOSAL

Academic Year: 2026-2027

Prepared By	varshitha
Date	14 August 2026
Club / Unit	zigbee
Department	computer-science

Approval Section

This proposal is submitted for academic and administrative review and approval. All operational details, logistics, scheduling, publicity, and resource planning will be finalized upon formal approval by the competent authorities.

To,

The Head of the Department, computer-science

The Chairperson, Technical Council

And All Concerned Reviewing Authorities

Subject: Request for review and approval to conduct IoT Workshop: Building Smart Devices organized by zigbee.

Respected Sir/Madam,

With due respect, on behalf of zigbee, computer-science, we would like to submit the enclosed event proposal for your kind review and approval. The key details are summarized below and elaborated further in the attached document.

Event Name	IoT Workshop: Building Smart Devices
Proposed Date	20 August 2026
Venue	Lab with 20 computers and necessary equipment
Expected Participants	50

We believe this event will add meaningful value to the students and the wider academic community, and will be conducted in accordance with the university's guidelines. We kindly request your approval to proceed with the planning, publicity, and execution of this event, and would be glad to provide any further information required.

Thanking you,

Yours sincerely,

Student Coordinator

Encl: Event Proposal Document

1. Event Details

Event Name	IoT Workshop: Building Smart Devices
Event Type	Workshop
Theme	Technical
Proposed Date	20 August 2026
Time	12:22
Venue	Lab with 20 computers and necessary equipment
Mode	offline

2. Organizing Team

Faculty Coordinator	varshitha
Student Coordinator(s)	varshitha, harshitha
Club Name	zigbee
Department	computer-science

3. About the Event

The IoT Workshop: Building Smart Devices aims to provide a comprehensive understanding of the Internet of Things (IoT) and its applications in building smart devices. The workshop will cover the fundamentals of IoT, including hardware and software components, communication protocols, and data analytics. Participants will gain hands-on experience in designing and developing IoT-based projects, enabling them to develop innovative solutions for real-world problems. The workshop will also provide a platform for participants to network with industry experts and like-minded individuals, fostering collaboration and knowledge sharing.

4. Objectives

- To introduce participants to the fundamentals of IoT and its applications in building smart devices.
- To provide hands-on experience in designing and developing IoT-based projects.
- To foster collaboration and knowledge sharing among participants and industry experts.
- To equip participants with the skills and knowledge required to develop innovative solutions for real-world problems using IoT.

5. Target Audience

The target audience for this workshop is students from the Computer Science and Engineering department, particularly those in their third and fourth years. The workshop is also open to students from other departments who have a keen interest in IoT and smart devices.

6. Expected Number of Participants

50

7. Resource Person Details

Name	ravi
Designation	professor
Organization	google
Short Bio	he is a professor there for reserach

8. Event Schedule

Time	Activity	Speaker / Lead
9:00 AM - 9:30 AM	Registration and Welcome	Varshitha, Faculty Coordinator
9:30 AM - 11:00 AM	Introduction to IoT and its Applications	Ravi, Professor, Google
11:00 AM - 12:30 PM	Hands-on Session: Designing and Developing IoT-based Projects	Harshitha, Student Coordinator
12:30 PM - 1:30 PM	Lunch Break	Student Coordinators
1:30 PM - 3:00 PM	Group Discussion: IoT-based Project Ideas and Solutions	Ravi, Professor, Google

9. Budget Estimation

S.No.	Particulars	Estimated Amount
1	40,000	Rs. 0
2	Refreshments & Catering	Rs. 2,500
3	Materials & Supplies	Rs. 2,000
4	Speaker Honorarium	Rs. 1,500
5	Contingency & Miscellaneous	Rs. 1,000
Total Estimated Budget		Rs. 10,000

10. Logistics Required

Item	Requirement / Remarks
Projector	Required
Mic	Required
Internet	Not Required
Certificates	Not Required
Refreshments	Not Required
Photography	Not Required
Volunteers	Not Required

11. Publicity Plan

The publicity plan for the workshop includes creating posters and flyers to be distributed across the campus, sending out email invitations to students and faculty members, and promoting the event on social media platforms. The event will also be publicized through the university's website and newsletter. A registration link will be created and shared with the target audience, and a brochure will be designed and distributed to provide more information about the workshop.

12. Expected Outcomes

- Participants will gain a comprehensive understanding of IoT and its applications in building smart devices.
- Participants will develop hands-on experience in designing and developing IoT-based projects.
- Participants will network with industry experts and like-minded individuals, fostering collaboration and knowledge sharing.
- Participants will be equipped with the skills and knowledge required to develop innovative solutions for real-world problems using IoT.

13. Risks & Mitigation

Potential risks for the workshop include last-minute cancellations by the resource person, technical issues with the equipment, and low registration numbers. To mitigate these risks, the organizers will have a backup plan in place, including identifying alternative resource persons and having a technical support team on standby. The organizers will also promote the event aggressively to ensure a good turnout.
